

## **ENVIRONMENTAL POLICY**

### **BS EN ISO 14001:1996**

The management and all who work at Nottinghamshire Recycling Ltd (NRL) are committed to the care of the environment and the control and prevention of pollution arising from its waste collection, treatment and transfer activities.

Nottinghamshire Recycling is committed to continuous improvement of the management and operation of all its waste collection, treatment and transfer activities, which have an impact upon the environment.

Nottinghamshire Recycling seeks to minimise waste arisings, promote recycling initiatives, reduce energy consumption, reduce harmful emissions and where possible, to work with contractors / suppliers who also have and maintain an environmental policy. Nottinghamshire Recycling also operates a waste minimisation policy.

Nottinghamshire Recycling environmental system is a commitment to improving environmental performance. This is achieved by setting of annual environment and performance targets and objectives, which are regularly monitored and reviewed. These objectives and targets are publicised and distributed throughout the company and all staff are committed to their achievement.

Nottinghamshire Recycling ensures the achievement of the above commitments, by implementing an environmental management system which satisfies the requirements of BS EN ISO 14001:1996.

This policy and the obligations and responsibilities required by the environmental management system have been communicated to all employees.
